

GERMANS FALL IN TWO HARD BLOWS STRUCK AT THE FRENCH

into the German positions west and south, in the suburbs of the city, indicated steady progress.

The belief here is that with Lens gone, Field Marshal Hindenburg will retire along a line running roughly from Zonnebeke (fifteen miles north of Lille), down to Carvin, and connecting with the Drocourt "switch line" in front of Douai, Cambrai and St. Quentin. From the Drocourt line south the Germans would continue over practically their present front. The suggested German withdrawal to the north would, it was estimated, release more than 150 square miles of Belgian and French territory to the Allies. The retreat would probably be explained away to the German people on the excuse that it could "straighten out the German line." It would, without a doubt, since the lines near Lens have been broken by the British assaults of Vimy Ridge and of Meuse, into an exceedingly jagged series of twists.

Lens was reported to-day practically in ruins from both the German scheme of destruction and of the shells from the fighting forces.

SLAYS REPORT FIGHTING ALONG ALL FRONTS

Germans Use Gas Waves and Grenades on the Russian Troops.

PETROGRAD, June 29.—The official War Office communication issued to-day says:

"On the western front, in the direction of Kovor, west of Kozlovsk, the enemy emitted gas waves which the wind dispersed before they reached our trenches. South of Berezany the enemy attacked one of our advanced trenches and showered grenades on the defenders, who retired after taking some prisoners."

"In the region of Kurpatovsk and Chibina the enemy directed an intense artillery bombardment on our trenches. The Russian troops repulsed the attack. On the Caucasian front we destroyed the enemy in the direction of Kherbek. We repulsed the Turkish attacks at Russian. Aviator Lehman shot down a German airplane in the region of Pluma. A hostile air squadron dropped about twenty-five bombs in the region of Kozlovsk."

(Special to The Evening World.)
PITTSBURGH, Pa., June 29.—Dr. Charles C. Wiseman, a chemist in the United States Marine Hospital here, was arrested to-day and Department of Justice agents are investigating his alleged connection with the German Government. It is believed he is a German spy.

Police who searched his apartments found considerable literature attacking the Government.

FRENCH REPULSE GERMAN DRIVES ON TWO FRONTS

Attempted Counter Offensives Fail at Verdun and North of the Aisne.

PARIS, June 29.—Picked German troops made a heavy attack last night on the Verdun front near Hill 304 and Avocourt Wood, after especially severe shelling. To-day's official statement says the attack was disorganized by the sharp reply of the French artillery and that the Germans obtained a footing at only a few points in the first line.

This morning the Germans made another violent effort east of Hill 304. It failed completely.

The Germans were active on the Aisne front also. All their attacks were repulsed.

Following is the text of to-day's War Office statement:

"The enemy showed very great activity on the Aisne front during the night. Violent bombardments were followed by severe attacks in the regions of Cerny, southeast of Corbeny and northwest of Rheims. All his efforts were broken up by our fire or nullified by counter-attacks, and our positions were maintained."

"The fighting was particularly heavy in the region of Cerny, where the enemy made several attacks at two points on our front. In the village of Cerny enemy detachments succeeded in gaining a footing in our first line. They were driven out by an energetic counter-attack by our troops, leaving numerous bodies on the ground. We took prisoners."

"On the left bank of the Meuse (Verdun front), the artillery fighting after noon yesterday became extremely intense."

"In the region of Agcourt Wood and Hill 304 a violent bombardment was directed against our positions, and was followed at 6.30 o'clock in the evening by a powerful attack delivered by special German assaulting troops on a front of two kilometers west of Hill 304. Our effectively directed fire disorganized the attack, which ended with the Germans failing to gain a footing at some points in our first line. A new attack at 3.45 o'clock this morning on our positions west of Hill 304 completely failed."

The Aisne front attack is another chapter to the German efforts of the past ten days to loosen the French grip on dominating positions below Lens.

Germans Claim Capture of 2,000 Yards of French Trenches.
BERLIN, June 29 (via London).—German forces yesterday captured 2,000 yards on both sides of Malancourt-Esnes road, on the west bank of the Meuse in the Verdun sector, over a width of 2,000 yards, and 1,000 yards, says the official statement issued to-day by the German General Staff.

To-day the Germans stormed a 2,000 yard wide French position in Avocourt wood. More than 500 prisoners were taken at both points.
